

## WATER DAMAGE

### Refusal of Recommendation and Release of Liability

A Pacific Restore representative has advised me that there are areas in the structure mentioned below, which are wet and/or contaminated, or which could become contaminated. Pacific Restore representative has recommended certain procedures that include the following:

---

---

---

---

---

**I have voluntarily chosen to refuse Pacific Restore to perform the procedures that have been described to me and do so with full knowledge of the potential risks. I hear by accept full responsibility and liability for any and all consequences of my refusal.**

I understand that refusing the services, the property may become biologically contaminated, and that substantial additional damage may occur. Mold, fungi, and/or bacteria could grow in or around the carpet, padding, walls, cabinets, and elsewhere within the structure, causing further property damage and/or resulting in a "sick" building, which may be a health hazard. I understand that the problems which may result include, but are not limited to toxic, allergic, and inflammatory illness, and disease, as well as structural and aesthetic damage, such as warping, decay, and dry rot.

Accordingly, I wave in all potential claims that I may have with Pacific Restore, or in the future, for damages, illness, or any type of harm that may result from my refusal of the recommendations that have been described to me. I further agreed to release, hold harmless, defend (pay attorneys fees), and indemnify Pacific Restore against any and all claims or actions now, or at any time in the future, which may result from the refusal of any of the recommended procedures that have been described to me. I execute this release voluntarily and without or coercion.
